INCLUSIONS

- Remap/Multi Map
- 1600nm Clutch
- 4" Exhaust
- G350 inc. Power Pipe
- Airbox
- Fan Kit
- Armax Snorkel or Fatz Snorkel

OVERVIEW

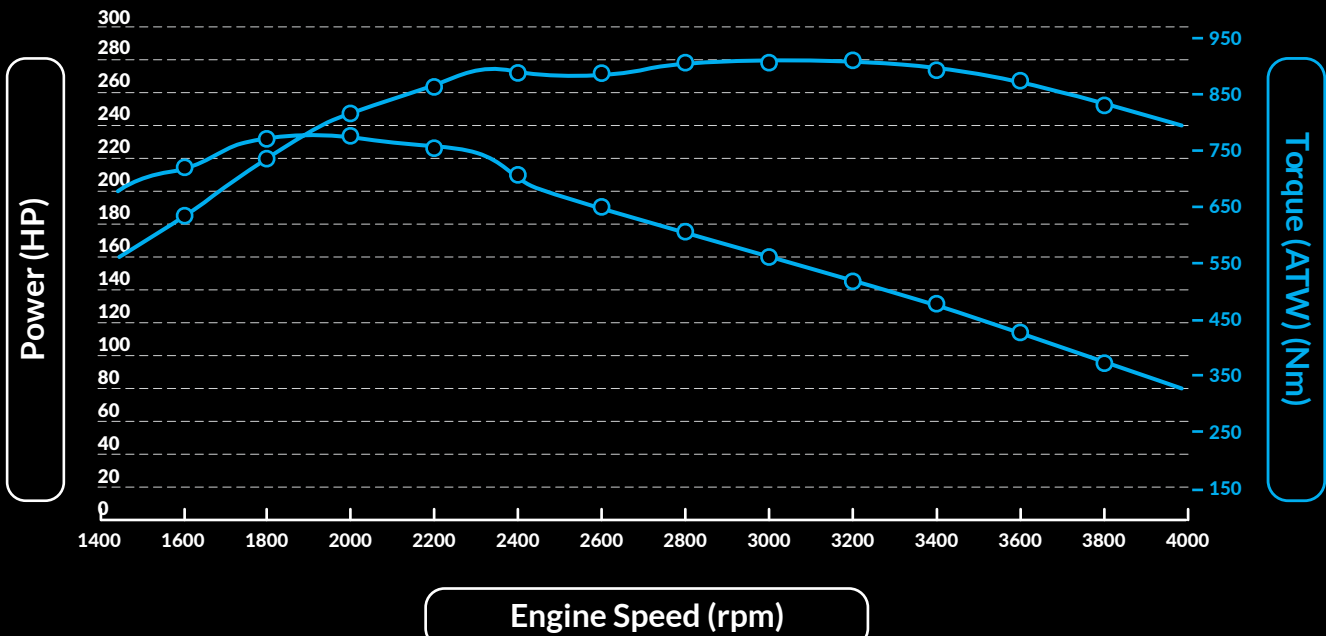

- Package designed for the customer that is chasing more power than a standard remap.
- Opting for the turbo and supporting modifications will greatly increase the boost response and torque throughout the rev range, where the factory turbo falls over the Gturbo upgrade will pull all the way from 1800 rpm to 3000rpm plus!
- With the use of the upgraded Power Pipe this not only adds more flow from your airbox to the turbo, but adds the reliability of where the factory intake pipe is restrictive and can suck shut with higher boost levels.
- Utilising the factory intercooler that can flow upwards of 35 psi efficiently, we use a Just Autos fan kit to help keep it efficient as intake temperatures rise in certain conditions.

INCLUSIONS

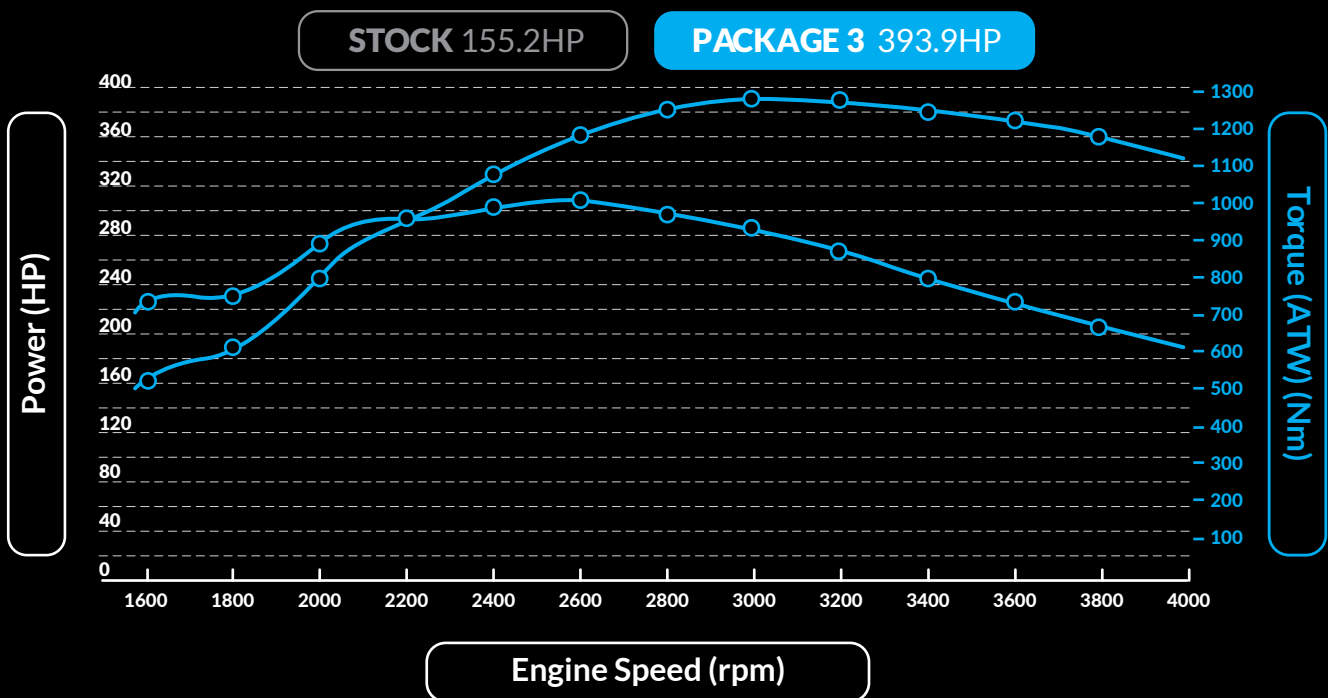

- Multi Map
- 1600nm Clutch
- 4" Exhaust
- G350 inc. Power Pipe
- Injector Upgrade
- Fan Kit
- Airbox
- Armax Snorkel or Fatz Snorkel

OVERVIEW

- Designed for the performance enthusiast that wants power and performance but wants to keep that reliability that Toyota is renowned for.
- The added benefit of the upgraded injectors is that not only we can get more fuel in which allows us to run more boost. However, getting the diesel in at the correct time allows the injection window to be shorter but with more volume. This will not only give us more power but increased fuel efficiency.
- Average power outputs of over 350hp and 1150nm at the rear wheels.
